

Dear Parents and Guardians,

The conclusion of each school year offers administrators the opportunity to assess our students' performance and evaluate our district's achievements over the course of the past nine months. Our students have excelled in the academic, athletic, and artistic realms with the assistance of our very dedicated and accomplished faculty and staff. Their guidance and encouragement afford students opportunities to achieve and often to exceed their own high expectations. Those of us in administration couldn't be more proud of our faculty and staff. Indeed, our School District enjoys an outstanding reputation because of these individuals.

An integral component of the unique academic and social environment of the Academies is the commitment of involved parents who work together with faculty and staff to foster an atmosphere in which students can thrive and succeed. We are deeply grateful to you for your continued support of the Bergen County Academies and your involvement in the many activities that provide a vibrant school social life for our students. I urge parents of incoming freshmen to join the PPO. You will be joining a dedicated and active group of individuals who will welcome you to the BCA family.

As we review the past year and look forward to the future, please know that we continue to commit ourselves to providing an environment that values excellence, encourages creativity, and supports the development of our students as lifelong learners and active members of our global society.

I would like to take this opportunity on behalf of the administration, faculty, and staff of Bergen County Technical Schools to extend our best wishes to parents of graduating seniors as you move on to this next phase of your child's academic career. It was a pleasure to have you and your children as part of our community.

Sincerely,

Howard Lerner, Ed.D.
Superintendent
